

METHAGENE

Questionnaire researcher profile

- 1) Tell us about yourself (Who are you? Where are you from? What is your educational background?)
I am a researcher in Brazil. My background is Agronomic Engineering and Biology.
- 2) What is your area of expertise?
My main area of expertise is mitigation strategies for methane emissions of cattle.
- 3) Where does your focus lie within your current project(s)? (related to GHG/methane)
Nutritional strategies and sustainable intensification of production systems.
- 4) What would be the added value for you of joining an international project/network? (such as the METHAGENE network, or the RuminOmics project)
Aggregate more knowledge on our local team to evaluate rumen microorganisms.
- 5) What and/or who inspired you to make a career in science?
Since very young that was my dream, inspired by the constant challenge.
- 6) What do you enjoy most about your work?
Like a good whisky, we get better with aging.
- 7) What is your most stand-out or surprising moment in science so far?
Nothing special, still waiting for it.
